

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL VALLEY REGION

TENTATIVE ORDER NO. R5-2022-XXXX

RESCINDING WASTE DISCHARGE REQUIREMENTS

The California Regional Water Quality Control Board, Central Valley Region, finds that the Board adopted the following Order, which is no longer applicable for the reasons shown.

STANDARD MANAGEMENT COMPANY, MCHENRY VILLAGE SHOPPING CENTER, WASTE DISCHARGE REQUIREMENTS ORDER NO. R5-2002-0012, STANISLAUS COUNTY

Waste Discharge Requirements (WDR) Order No. R5-2002-0012, adopted 25 January 2002, prescribes requirements for Standard Management Company (Discharger) at its McHenry Village Shopping Center for a groundwater extraction and treatment system (GWETS) operated to remove tetrachloroethylene contamination from groundwater at the property. The GWETS operated through 2012, and during operation discharged treated groundwater to a dry well and infiltration trench at the property. Staff concurred with a request to discontinue operation of the GWETS in 2012, and the system has not operated since that time. Therefore, it is appropriate to rescind WDR Order R5-2002-0012.

IT IS HEREBY ORDERED that the above Order is rescinded.

I, PATRICK PULUPA, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region, on XX February 2022.

TENTATIVE

PATRICK PULUPA, Executive Officer
